- 2. Review Dates

Regional reviews display example

Conversations (v2 Display): Review Icons

Icons

16. Review Stars

- For the v2 display, the Icon Size of review stars is not exact in pixels. To calculate the Review Stars' size, the Icon Size value in the Icons menu is multiplied by 0.75 to determine the final size of the stars. For example, a font size value of 16px would result in a star width and height of 12px (16 * 0.75 = 12).
- 'Full' color changes outlines and fill of display submission stars under "Review this Product"
- 'Empty' state affects empty star backgrounds in submission form stars.

18. Bars

- The badge icon colors can be configured from Icons: Bars: Full.

Backgrounds

19. Buttons – Primary

The "button" option sets the color of the Helpfulness voting icons.

Conversations (v2 Display): Q&A Submission

Fonts

- 1. Section Header
- 2. Form Fieldset Label
- 3. Review Text
- 4. Links
- 5. Buttons - Primary

Backgrounds

6. Primary Button

Affects the background color of submission form buttons, which will have 50% opacity until form sections are completed.

Note: To avoid color combinations that can cause poor accessibility, a contrast ratio of 4.5:1 is enforced for all elements. This primary brand color of the app, used for buttons, draws from the primary button background color and is measured against the app background (#FFF or white). Should that contrast check fail, the Full bar color (found in the Style Editor under Icons : Bars: Full) is checked against the app background as a fallback candidate. Should that fail, the primary brand color becomes #444.

Note for Cancel button: The Cancel button uses *Fonts: Buttons - Primary* as its font family, *Backgrounds: Primary Button* as the button color and border color and a transparent color as the background color.

Borders

7. Primary Button

Any changes outside of the list above cannot be done.

This diagram shows a 'Questions' form with several numbered callouts: 1. Section Header (Questions), 2. Form Fieldset Label (Question Text*), 3. Review Text (Font, color only) (Email*), 4. Links (terms & conditions), 5. Buttons - Primary (Cancel), 6. Submit button, and 7. Buttons - Primary (Submit). The form includes input fields for Nickname* (test_account), Email* (test.account@bazaarvoice.com), and Location. It also has a checkbox for 'I agree to the terms & conditions' and a text area for 'Does this come in any other sizes?'. The form is titled 'Questions' and has a '34/255 maximum' character limit for the question text.

Question submission form example

This diagram shows a 'My Answer' form with several numbered callouts: 1. Section Header (My Answer), 2. Form Fieldset Label (Answer*), 3. Review Text (Font, color only) (Email*), 4. Links (terms & conditions), 5. Buttons - Primary (Cancel), 6. Submit button, and 7. Buttons - Primary (Submit). The form includes input fields for Nickname (test.account@bazaarvoice.com) and Email (test.account@bazaarvoice.com). It also has a checkbox for 'I agree to the terms & conditions' and a text area for 'This is an answer.'. The form is titled 'My Answer' and has a 'maximum' character limit for the answer text.

Conversations: Background and Border Menu Options

Backgrounds Menu Options

- **Background Color:** Select a background color from the palette or enter the hex code of the desired color.
- **Gradient:** Adds a gradient from Gradient Color to Background Color. Select whether the gradient should start at the Top or Bottom.
- **Gradient Color:** Select a color from the palette or enter the hex code of the desired color.
- **Gradient Opacity:** Set the opacity for the gradient.

Form Fieldset States

- **All:** Changes will be applied to all form fieldset states
- **Normal:** Changes will be applied to default form fieldset state only.
- **Selected:** Changes will be applied to the active form fieldset state only.

Button States

- **All:** Changes will be applied to all button states.
- **Button:** Changes will be applied to default button state only.
- **Hover:** Changes will be applied to the hover button state only.

Borders Menu Options

- **Select borders to edit:** Specify and enable/disable the top, bottom, left and/or right borders.
- **Color:** Select a border color from the palette or enter the hex code of the desired color.
- **Width:** Select a border width in pixels.
- **Style:** Select a border style from the dropdown: None, Hidden, Dotted, Dashed, Solid, Double, Groove, Ridge or Inset.
- **Border Radius:** Specify a border radius in pixels to add rounded corners to an object. Each corner can have different settings, or one setting can be applied for all corners.

Any changes outside of the list above cannot be done.

Backgrounds menu

The 'Backgrounds' menu for 'Rating Summary' shows options for Background Color (transparent), Gradient (None), Gradient Color (transparent), and Gradient Opacity (slider). A preview box is at the bottom.

Backgrounds menu: Form Fieldset

The 'Backgrounds' menu for 'Form Fieldset' includes state tabs (all, normal, selected) and options for Background Color (transparent), Gradient (None), Gradient Color (transparent), and Gradient Opacity (slider). A preview box is at the bottom.

Backgrounds menu: Buttons

The 'Backgrounds' menu for 'Buttons' includes state tabs (all, button, hover) and options for Background Color (#E26896), Gradient (None), Gradient Color (transparent), and Gradient Opacity (slider). A pink preview bar is shown.

Borders menu

The 'Borders' menu for 'Primary Button' shows 'Select Borders to edit' (top, bottom, left, right), Color (transparent), Width (px), Style (None), and Border Radius (Apply top left radius value to all corners, with four 10px inputs). A preview box shows a rounded blue button.

Conversations (v2 Display): Review Margins and Padding

Margins and Padding

To style the background settings for margin and padding:

- Expand the Margin & Padding section of the style editor to customize how margins and paddings are displayed for rating summaries and content elements.
- Select the element you want to customize from the drop-down list.
- Enable Uniform margins or Uniform padding to automatically apply the latest value you enter into a margin or padding field to the remaining fields.
- Specify the top, bottom, left, and right margin and padding values (in pixels) within the appropriate field.

40. Review Stars

- Full:** The full star fill color, used for both product ratings and secondary ratings, is measured against the app background of #FFF (white).
Note: We allow for a lower contrast ratio in the Review Star color (1.2:1) to accommodate a broader range of brand colors for stars. This helps prevent white on white and transparency issues while still accepting common lower contrast color combinations if desired.
Should that contrast check fail, the primary app color, drawn from the primary button background color, is used.
- Empty:** The star empty color is measured against the star fill and app background colors.
Note: We allow for a lower contrast ratio in the Review Star color (1.2:1) to accommodate a broader range of brand colors for stars. This helps prevent white on white and transparency issues while still accepting common lower contrast color combinations if desired.
If the contrast ratio is not acceptable, the color is set to #CCC (light gray).

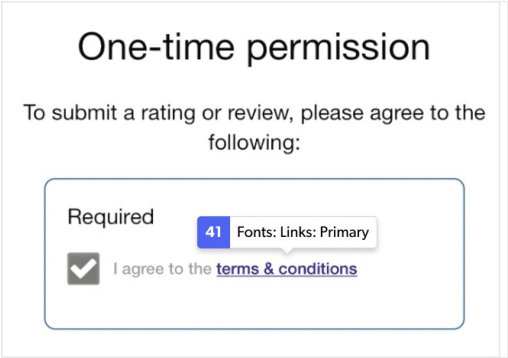

Main ratings page

Fonts

41. Links

- Link color is measured against the app background color.
- Note:** We allow for a lower contrast ratio in the Review Star color (1.2:1) to accommodate a broader range of brand colors for stars. This helps prevent white on white and transparency issues while still accepting common lower contrast color combinations if desired.

Backgrounds

43. Buttons - Primary

This color is used in many different places.

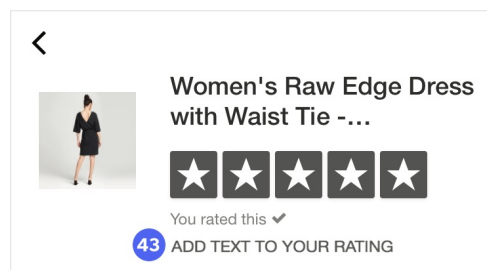

- It is used as the text color for the message to either add text to your rating or to finish editing.
- It is used for the active border color for text inputs.
- It is more importantly used as the brand color, so most styles default to whatever is provided in this field. This includes the other question types, such as the single and multi-select.
- It is also used for the CTA button at the bottom of the page.

Note: To avoid color combinations that can cause poor accessibility, a contrast ratio of 4.5:1 is enforced for all elements.

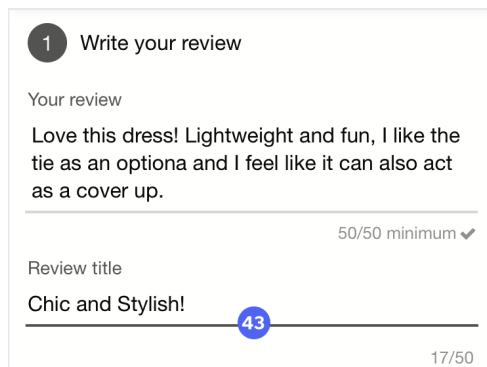

This primary brand color of the app, used for buttons, labels, and slider controls, draws from the primary button background color and is measured against the app background (#FFF or white).

Should that contrast check fail, the Full bar color (found in the Style Editor under Icons : Bars: Full) is checked against the app background as a fallback candidate.

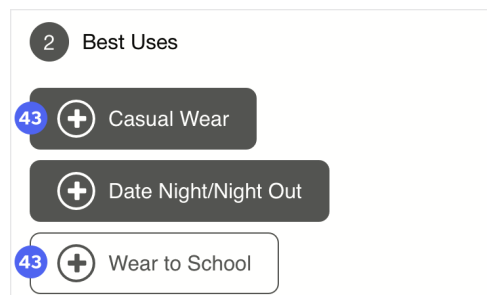

Should that fail, the primary brand color becomes #444.

44. Review Stars

- **Full:** The full star fill color is measured against the email background. For the stars next to the radio buttons, a slightly lighter version of the full star color is used on the filled stars. On hover and click, the filled stars are full color. For the clickable stars in the “Rate your other purchases” section, the full star color is used for stars when hovered over and clicked on.

Note: To meet accessibility standards and accommodate a broader range of brand colors, we allow a low contrast ratio (1.2:1) for the review stars full color. If the contrast ratio is lower than 1.2:1, or if an element is transparent, the fallback color #444 (dark gray) is used.

- **Empty:** The empty star color is used for the star color outline in the stars next to the radio buttons. The empty star outline color is also used in the “Rate your other purchases” section.

Note: To meet accessibility standards and accommodate a broader range of brand colors, we allow a low contrast ratio (1.2:1) for the review stars outline color. This helps prevent white-on-white and transparency issues while still accepting common, low-contrast color combinations if desired. If the contrast ratio is lower than 1.2:1, or if an element is transparent, the fallback color #CCC (light gray) is used.

Fonts

45. Review Text

This color is used for the main text colors in the email.

A slightly lighter version of this color is used for the following text.

- “Can’t enter text?” message under “Your review.”
- “Quality insights are...” text under the review text field.
- “If you are unable to submit...” text under the Submit button.
- “Start rating” text under the clickable stars.
- Non-linked text in the footer.

46. Links

Link: This color is used for the link colors in the email.

Note: To avoid color combinations that do not meet accessibility standards, we allow for a contrast ratio of 4.5:1 for all elements. If the contrast ratio is lower than 4.5:1, or if an element is transparent, the fallback color #0066B4 (blue) is used.

47. Buttons - Primary

Primary Button: This color is used for the text color of the buttons. For example, the "WRITE A REVIEW" button.

Note: To avoid color combinations that do not meet accessibility standards, we allow for a contrast ratio of 4.5:1 for all elements. If the contrast ratio is lower than 4.5:1, or if an element is transparent, the fallback color #fff (very light gray) is used.

Backgrounds

47. Buttons - Primary

This color is used for the button backgrounds.

- On some iOS devices, a disabled button is indicated using a slightly lighter background color based on the primary button color.

Borders

49. Primary Button

The top left border radius determines the border radius of the buttons.
