Bazaarvoice

Bazaarvoice for Magento Extension Supplement v5.1.8

Version 5.1.8

Configuration Settings Outside the Magento Control Panel
There are several configuration parameters that can be hard coded into your site.

The following parameters can be hard coded in your app/etc/local.xml file.

Product Feed Brand Attribute Code	<product_feed_brand_attribute_code>	By default this configuration is set to NULL, and can be set to a field of your choosing. Note: it must be a "Select" Type attribute in Magento.
Product Feed UPC Attribute Code	<product_feed_upc_attribute_code>	By default this configuration is set to NULL, and can be set to a field of your choosing. Note: it must be set to a "Text" Type attribute in Magento.
Product Feed EAN Attribute Code	<product_feed_ean_attribute_code>	By default this configuration is set to NULL, and can be set to a field of your choosing. Note: it must be set to a "Text" Type attribute in Magento.
Product Feed Manufacturer Part Number Attribute Code	<product_feed_manufacturerpartnumber_attribute_code>	By default this configuration is set to NULL, and can be set to a field of your choosing. Note: it must be set to a "Text" Type attribute in Magento.
Product Feed ISBN Code Attribute Code	<product_feed_isbn_attribute_code>	By default this configuration is set to NULL, and can be set to a field of your choosing. Note: it must be set to a "Text" Type attribute in Magento.
Product Feed Model Number Attribute Code	<product_feed_modelnumber_attribute_code>	By default this configuration is set to NULL, and can be set to a field of your choosing. Note: it must be set to a "Text" Type attribute in Magento.

Example Code:
```
<default>
 <bazaarvoice>
  <bv_config>
   <product_feed_brand_attribute_code>manufacturer</product_feed_brand_attribute_code>
    <product_feed_upc_attribute_code>upc</product_feed_upc_attribute_code>
    <product_feed_ean_attribute_code>ean</product_feed_ean_attribute_code>
    <product_feed_manufacturerpartnumber_attribute_code>mpn</product_feed_manufacturerpartnumber_attribute_code>
    <product_feed_isbn_attribute_code>isbn</product_feed_isbn_attribute_code>
    <product_feed_modelnumber_attribute_code>modelnumber</product_feed_modelnumber_attribute_code>
  </bv_config>
 </bazaarvoice>
</default>
```
